TotalSource® offers a complete line of replacement brooms, brushes and pad drivers to fit Advance, American-Lincoln, Factory Cat, Power Boss, Tennant, and many others. Offering a variety of filament and pattern options, TotalSource® can meet requirements for a wide range of applications. All TotalSource® replacement brooms, brushes and pad drivers are manufactured to meet or exceed the OEM specifications.

Totalsource® ofrece una línea completa de repuestos de cepillos, barredoras y almohadillas de pulido que se adaptan a American-Lincoln, Factory Cat, Power Boss, Tennant, y muchos más. Ofreciendo una variedad de filamentos y patrones, Totalsource® puede satisfacer una gran serie de aplicaciones. Todos los repuestos de cepillos, barredoras, y almohadillas de pulido de Totalsource® son manufacturadas para satisfacer y exceder las especificaciones OEM.

TotalSource® offre une gamme complète de remplacement des balais, des brosses et des conducteurs de tampons pour s'adapter à Advance, American-Lincoln, Factory Cat, Power Boss, Tennant, et bien d'autres. Offrant une variété de filaments et les options de motif, TotalSource® peut répondre aux exigences d'un large éventail d'applications. Tous les balais de rechange TotalSource®, les pinceaux et les conducteurs de tampons sont fait à respecter ou dépasser les spécifications OEM.

## Ordering

The easiest way to order brooms, brushes, and pad drivers is by the OEM part number. If you do not know the OEM part number, you can use the make and model information provided to identify a TotalSource® part number for your specific application.

## Ordenar

La manera más fácil de ordenar cepillos, barredoras, y almohadillas de pulido es por medio del número de parte OEM. Si no sabes el número de parte OEM, puedes usar esta guía para identificar el número de parte Totalsource® para tu aplicación específica usando la información de marca y modelo.

## Commander

La meilleure façon de commander des balais, des brosses et des pilotes est par le numéro de pièce de fabricant d'équipements originaux. Si vous ne connaissez pas le numéro de pièce de fabricant d'équipements originaux, vous pouvez utiliser ce livre pour identifier un numéro de pièce TotalSource® pour votre application spécifique en utilisant la marque et le modèle.

## Brush Type Tipo de Cepillo Type de Brosse

### Description

Cylindrical scrub main scrub

Cylindrical scrub or main scrub use a full-fill design that keeps bristles on the floor at all times and directs solution to the center of the scrubbing path as the bristles agitate the debris loose from the ground. The filament length on this brush designates it as a scrubber since the short bristle isn't able to flick or sweep the debris off the ground.

Main broom

The main broom is built around a heavy duty core, with staple-set tufts aligned in spiral rows. This design places bristles on the floor at all times to increase vacuum efficiency and improve pickup characteristics.

Pad driver

Stiff,  $\frac{1}{2}$ " long polypropylene bristles unevenly trimmed and widely spaced to firmly grip scrubbing pads.

Side broom

The side brooms purpose is to throw debris out in front of the sweeper so that the main broom can pick it up.

Side scrub rotary brush

A rotary brush or side scrubber is designed to spin and agitate debris loose from the ground with its dens and stiff bristles.

## Material Material Matériel

▼	Material	Description
Grit	Grit	Nylon filament impregnated with silicon carbide particles. Grit filaments are offered in 0.070"/46, 0.050"/80, 0.035"/180, 0.022"/120, and 0.018"/500. The first number is the filament diameter. The larger the diameter the stiffer the bristle. The second number is the particle size. The smaller the grit number the more aggressive the scrubbing.
Nylon	Nylon	A highly productive filament and has an excellent brush life in dry sweeping conditions. Nylon performs well on rough surfaces and in high-temperature environments because of its durability and high melting point. The smaller the grit size the more aggressive the scrubbing.
	Soft nylon	0.18 - 0.20gauge Nylon bristle
	Medium nylon	0.22gauge Nylon bristle
	Stiff nylon	0.28gauge Nylon bristle
	Nylon patrol	The "V" shaped pattern of the bristles is used for sweeping large indoor and outdoor areas at higher speeds and gives superior hopper loading of sand and larger items.
	Nylon wire	A combination of Nylon and Wire to provide more stiffness.
Poly	Poly	The most popular filament in scrubbing applications, Poly is efficient for use with most soils and surfaces. Although Poly is more economical than Nylon, it is not recommended for sweeping high temperature debris.
	Medium poly	0.22gauge bristle
	Stiff poly	0.28gauge bristle
	Poly wire	A combination of Poly and Wire to provide more stiffness.
Proex	Proex	Is highly efficient as an all-purpose filament for indoor and outdoor sweeping applications, including damp or humid environments. Not recommended for high-temperature sweeping applications. Proex is polypropylene and derives its name from the X-shape of the bristle.
	Extra stiff proex	This Proex bristle gauge is greater than 0.28
	Proex/wire	A mixture of Proex and Crimped Wire. This is the most versatile and widely used filament.
	Stiff proex/wire	A 0.28gauge bristle mixture of Proex and Crimped Wire.
Union Fiber	Union fiber	Comprised of a mixture of Tampico and Palmyra fibers, this material is highly efficient for dust control and sweeping fine debris. As a natural fiber, Union has relatively shorter wear life versus other synthetic materials.
	Union mix	A combination of Palmyra and White Tampico used in hard surface polishing applications.
	Union/wire	A combination of Union Fiber and Wire to provide more stiffness.
Wire	Wire	Crinkle wire used on side brooms and in main brooms with a combination of Union and Proex.
	Butcher wire	Scarifying brush that uses staple set butcher wire to cut through dirt and buildup on concrete floors and scratch the surface.
	Flat wire	Flat Wire is made from flattened spring steel wire and is an aggressive material used only on side brushes and primarily in outdoor applications. This is an excellent material for digging heavy compacted debris away from the edges of buildings and curbs.
	Crimped wire	Used for applications needing extra cutting action for heavy-duty sweeping of compacted dirt or debris. Normally mixed with Proex or Union filaments. Recommended for low dust sweeping on unsealed surfaces when used alone.
	Steel wire	(0.014" diameter) is the most aggressive of the series, for use on unfinished concrete surfaces.

## Row Pattern Patron de Hilera Motif de Rangée

	Row Pattern ▼	Description
Single Row	2 3 4 6 8 12 18 20 24	The single row pattern is ideal for sweeping applications in dusty and/or sandy conditions. It is also referred to as the full-fill or high-density pattern. This pattern is designed to pick up fine debris, but not bulky.
Double Row	5 6 8 9 12 16	Because of its versatility, the double row pattern is the most popular pattern for sweeping applications. This design allows the space between each row to trap bulky items while the bristles are working to pick up the finer debris such as dust and sand.
Patrol Brush	5 5 Triple row 4 Quad row  4 Quad row 5 Triple row	<p>The patrol brush has a V-pattern and is designed primarily for high-speed sweeping in large areas. Designed with fewer rows with more tufts per row, there is more space between rows. This enables the brush to effectively pick up medium to large debris such as cans, paper and leaves at faster speeds.</p> <p>A patrol brush that is designed with fewer rows and allows for more space between the rows. This enables the brush to more effectively pick-up litter at faster speeds.</p>

## Grit Style Estilo de Grosor Motif de Grès

	Description
.018/500	0.018" diameter Nylon filament impregnated with 500 grit
.022/120	0.022" diameter Nylon filament impregnated with 120 grit
.035/180	0.035" diameter Nylon filament impregnated with 180 grit
.050/80	0.050" diameter Nylon filament impregnated with 80 grit
.066/36	0.066" diameter Nylon filament impregnated with 36 grit
.070/46	0.070" diameter Nylon filament impregnated with 46 grit

# Floor Machine Pads - Round

Almohadillas para Máquinas de Pisos – Redondas Tampons Machine à Plancher – Circulaires

## Natural (GORILLA®)

Natural pad is made with a blend of natural fiber and polyester and to give a wet look shine and will not glaze over.

## Natural

Está hecha con una mezcla de fibras naturales y poliéster y dará un brillo "como mojado" y no removerá ni acumulará la cera.

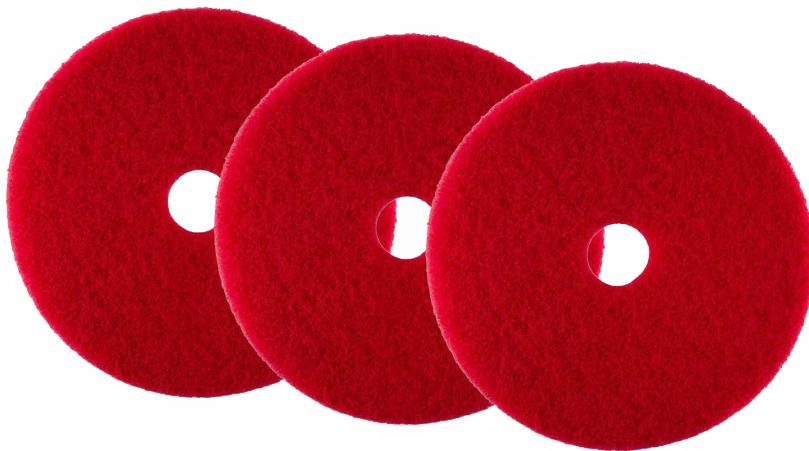

## Naturel

Le tampon naturel est composé d'un mélange de fibres naturelles et de polyestère afin d'un donné un lustre de type « mouillé ». Le tampon ne figera pas.

# Floor Machine Pads - Round

Almohadillas para Máquinas de Pisos – Redondas Tampons Machine à Plancher – Circulaires

## Red

Red is a light abrasive pad for spray buffing to a satin gloss. The fibers are more open to help keep pad from glazing over.

## Roja

Es una almohadilla con un abrasivo ligero para el abrillantado con rociador y dará un brillo satinado. Las fibras son más abiertas para ayudar a prevenir que la almohadilla remueva y acumule la cera.

## Rouge

Le tampon rouge est légèrement abrasif et spécialement conçu pour le polissage au jet jusqu'à une finition satinée. Les fibres ne sont pas trop serrées afin d'aider à éviter que le tampon fige.

# Floor Machine Pads - Round

Almohadillas para Máquinas de Pisos – Redondas Tampons Machine à Plancher – Circulaires

## Tan

Tan is mildly abrasive pad for dry buffing using slow speed floor machines. It will buff away light soil and level scratches for a soft luster.

## Café claro

Es una almohadilla de pulido en seco ligeramente abrasiva utilizada en máquinas de piso de baja velocidad. Removerá la suciedad leve y pulirá los rasguños a nivel para un brillo suave.

## Ocre (couleur sable)

Le tampon ocre (couleur sable) est légèrement abrasif et conçu pour les machines à polissage à sec à basse vitesse. Celui-ci polira les saletés légères et les petites graffignes afin de donner un lustre léger.

Almohadillas para Máquinas de Pisos – Redondas Tampons Machine à Plancher – Circulaires

## White

White is a non-abrasive pad used for dry polishing using slow speed floor machines. It will buff away light soil and level scratches for a high luster.

## Blanca

Es una almohadilla que no es abrasiva y es usada para pulir en seco utilizando máquinas de piso de baja velocidad. Removerá la suciedad leve y pulirá los rasguños a nivel para dar un gran brillo.

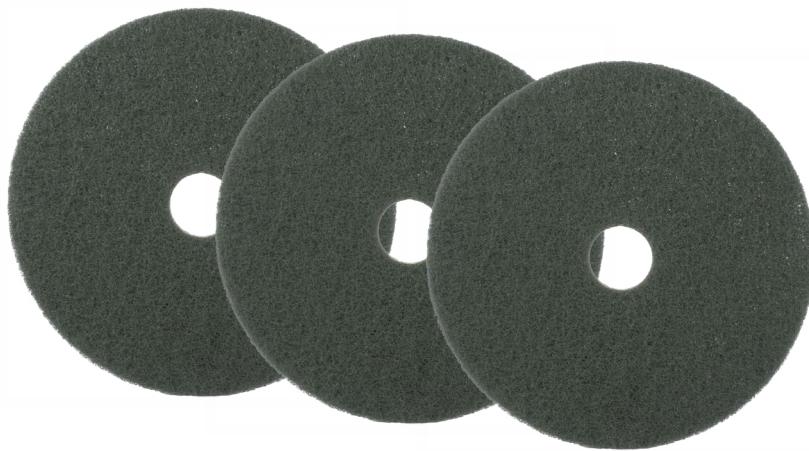

## Blanc

Le tampon blanc est non-abrasif. Il est conçu pour les machines à polissage sec à basse vitesse. Celui-ci polira les saletés légères et les petites graffignes afin de donner un lustre élevé.

# Floor Machine Pads - Round

Almohadillas para Máquinas de Pisos – Redondas Tampons Machine à Plancher – Circulaires

## Green

Green is a medium abrasive pad for wet scrubbing. This pad will remove embedded soil and black marks found in heavy traffic areas without stripping your finish to the tile.

## Verde

Es una almohadilla con un abrasivo mediano para fregado con solución de limpieza. Esta almohadilla remueve las marcas negras y la tierra incrustada en el piso que se encuentran en áreas de tráfico pesado sin eliminar el acabado del mismo.

## Vert

Le tampon vert est moyennement abrasif et est conçu pour le brossage mouillé. Ce tampon enlèvera les saletés incrustées et les traces noires retrouvées dans des endroits à trafic élevé sans avoir recours au décapage de la finition de votre plancher.

Almohadillas para Máquinas de Pisos – Redondas Tampons Machine à Plancher – Circulaires

## Blue

Blue is a medium abrasive pad for spray cleaning. To clean a lightly soiled floor use this pad with a spray solution and this process will remove a small amount of finish.

## Azul

Es una almohadilla con un abrasivo mediano para la limpieza con rociador. Para limpiar un piso ligeramente sucio, utilice esta almohadilla con una solución de limpieza en el rociador. Este proceso elimina una cantidad pequeña del acabado.

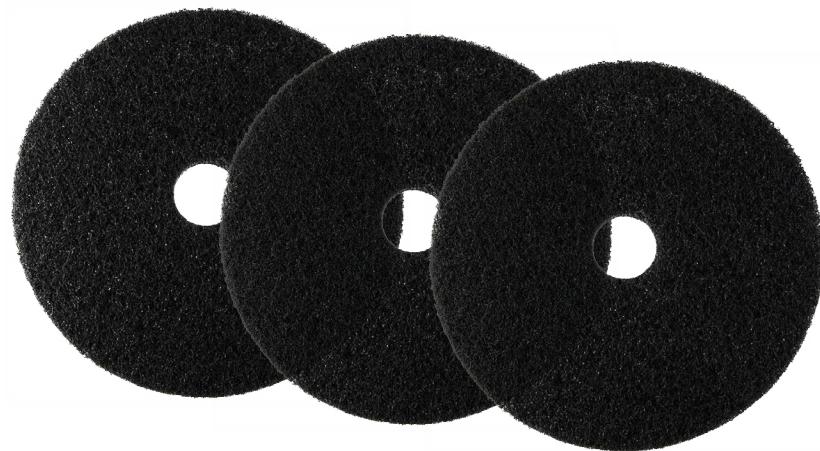

## Bleu

Le tampon bleu est moyennement abrasif et est conçu pour le nettoyage au jet. Pour nettoyer un plancher légèrement sale avec un solution nettoyante, utilisez ce tampon et ce processus n'enlèvera qu'une petite partie de la finition de votre plancher.

Almohadillas para Máquinas de Pisos – Redondas Tampons Machine à Plancher – Circulaires

## Black

Black is a very aggressive stripping pad. It is designed to be used to wet strip a floor. High quality abrasive materials make this an efficient tool for complete floor finish removal.

## Negra

Es una almohadilla de extracción muy agresiva. Está diseñada para remover completamente el acabado de un piso utilizando una solución de limpieza. Los materiales de alta calidad abrasivos hacen de este un instrumento eficaz para la remoción total del acabado del piso.

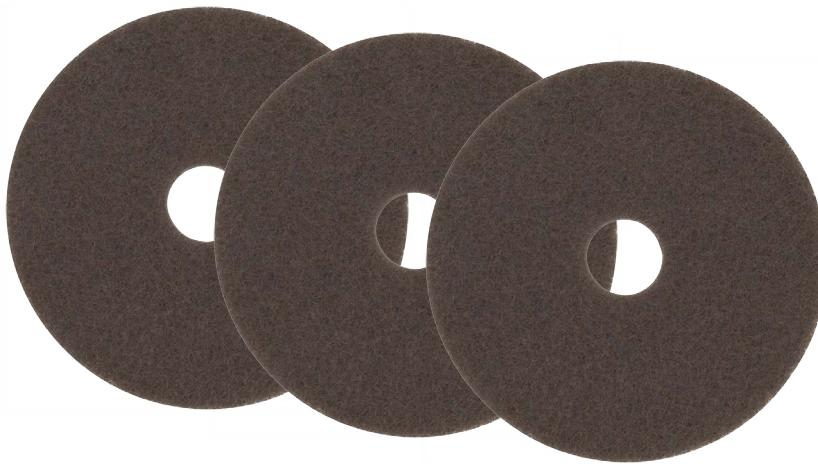

## Noir

Le tampon noir est très abrasif et est conçu pour le décapage humide d'une surface. Des matériaux abrasifs de haute qualité font de ce tampon un outil efficace pour le décapage complet de la finition de votre plancher.

# Floor Machine Pads - Rectangular

Almohadillas para Máquinas de Pisos – Rectangulares Tampons Machine à Plancher – Rectangulaires

## Natural (GORILLA®)

Natural pad is made with a blend of natural fiber and polyester and to give a wet look shine and will not glaze over.

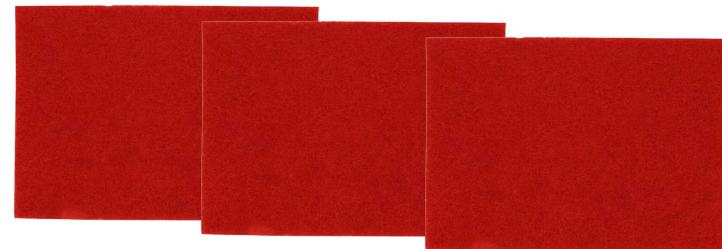

## Natural

Está hecha con una mezcla de fibras naturales y poliéster y dará un brillo "como mojado" y no removerá ni acumulará la cera.

## Naturel

Le tampon naturel est composé d'un mélange de fibres naturelles et de polyestère afin d'un donné un lustre de type « mouillé ». Le tampon ne figera pas.

## Red

Red is a light abrasive pad for spray buffing to a satin gloss. The fibers are more open to help keep pad from glazing over.

## Roja

Es una almohadilla con un abrasivo ligero para el abrillantado con rociador y dará un brillo satinado. Las fibras son más abiertas para ayudar a prevenir que la almohadilla remueva y acumule la cera.

## Rouge

Le tampon rouge est légèrement abrasif et spécialement conçu pour le polissage au jet jusqu'à une finition satinée. Les fibres ne sont pas trop serrées afin d'aider à éviter que le tampon fige.

# Floor Machine Pads - Rectangular

Almohadillas para Máquinas de Pisos – Rectangulares Tampons Machine à Plancher – Rectangulaires

Tan

Tan is mildly abrasive pad for dry buffing using slow speed floor machines. It will buff away light soil and level scratches for a soft luster.

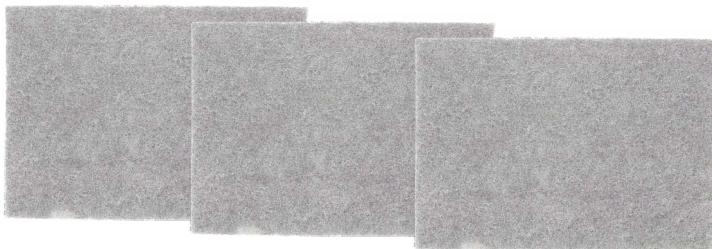

Café claro

Es una almohadilla de pulido en seco ligeramente abrasiva utilizada en máquinas de piso de baja velocidad. Removerá la suciedad leve y pulirá los rasguños a nivel para un brillo suave.

Ocre (couleur sable)

Le tampon ocre (couleur sable) est légèrement abrasif et conçu pour les machines à polissage à sec à basse vitesse. Celui-ci polira les saletés légères et les petites graffignes afin de donner un lustre léger.

White

White is a non-abrasive pad used for dry polishing using slow speed floor machines. It will buff away light soil and level scratches for a high luster.

Blanca

Es una almohadilla que no es abrasiva y es usada para pulir en seco utilizando máquinas de piso de baja velocidad. Removerá la suciedad leve y pulirá los rasguños a nivel para dar un gran brillo.

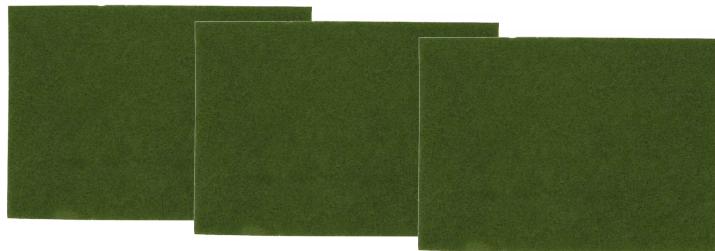

Blanc

Le tampon blanc est non-abrasif. Il est conçu pour les machines à polissage sec à basse vitesse. Celui-ci polira les saletés légères et les petites graffignes afin de donner un lustre élevé.

# Floor Machine Pads - Rectangular

Almohadillas para Máquinas de Pisos – Rectangulares Tampons Machine à Plancher – Rectangulaires

Green

Green is a medium abrasive pad for wet scrubbing. This pad will remove embedded soil and black marks found in heavy traffic areas without stripping your finish to the tile.

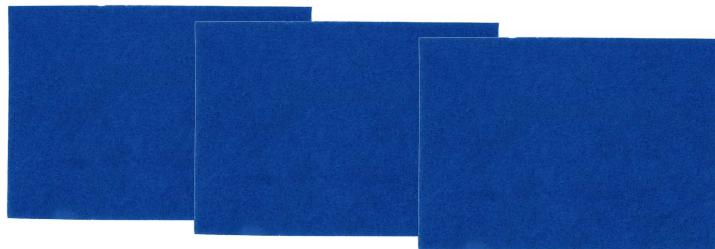

Verde

Es una almohadilla con un abrasivo mediano para fregado con solución de limpieza. Esta almohadilla remueve las marcas negras y la tierra incrustada en el piso que se encuentran en áreas de tráfico pesado sin eliminar el acabado del mismo.

Vert

Le tampon vert est moyennement abrasif et est conçu pour le brossage mouillé. Ce tampon enlèvera les saletés incrustées et les traces noires retrouvées dans des endroits à trafic élevé sans avoir recours au décapage de la finition de votre plancher.

Blue

Blue is a medium abrasive pad for spray cleaning. To clean a lightly soiled floor use this pad with a spray solution and this process will remove a small amount of finish.

Azul

Es una almohadilla con un abrasivo mediano para la limpieza con rociador. Para limpiar un piso ligeramente sucio, utilice esta almohadilla con una solución de limpieza en el rociador. Este proceso elimina una cantidad pequeña del acabado.

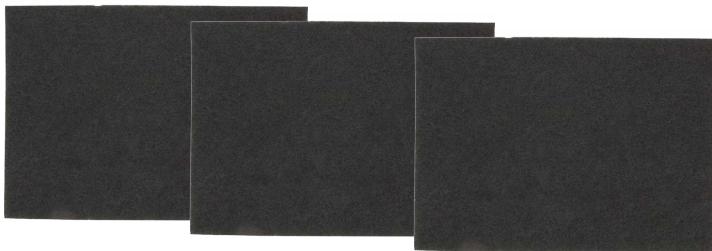

Bleu

Le tampon bleu est moyennement abrasif et est conçu pour le nettoyage au jet. Pour nettoyer un plancher légèrement sale avec un solution nettoyante, utilisez ce tampon et ce processus n'enlèvera qu'une petite partie de la finition de votre plancher.

# Floor Machine Pads - Rectangular

Almohadillas para Máquinas de Pisos – Rectangulares Tampons Machine à Plancher – Rectangulaires

Black

Black is a very aggressive stripping pad. It is designed to be used to wet strip a floor. High quality abrasive materials make this an efficient tool for complete floor finish removal.

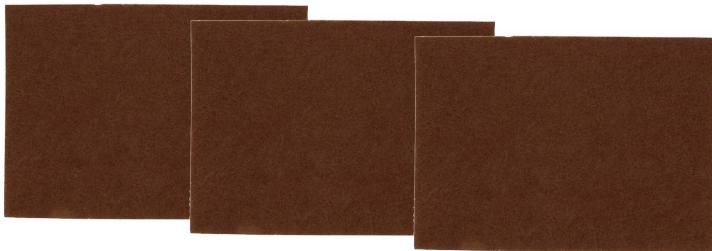

Negra

Es una almohadilla de extracción muy agresiva. Está diseñada para remover completamente el acabado de un piso utilizando una solución de limpieza. Los materiales de alta calidad abrasivos hacen de este un instrumento eficaz para la remoción total del acabado del piso.

Noir

Le tampon noir est très abrasif et est conçu pour le décapage humide d'une surface. Des matériaux abrasifs de haute qualité font de ce tampon un outil efficace pour le décapage complet de la finition de votre plancher.
